

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

MR. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and affords me much pleasure to recommend this remedy to everyone."

SPAIN HAS REPLIED

Neither Accedes to Nor Declines McKinley's Propositions.

CONGRESS ASKED FOR TIME.

President Expects Definite Results by Monday at the Latest—Captain Sampson Preparing His Fleet For Action—Underwriters Sharply Advance the War Risks.

New York, April 1.—A Washington special to The World this morning says that Spain's answer to the note presented by Minister Woodford has been received in cipher at the white house and that the following is an outline of the reply:

"Spain neither accedes to nor declines President McKinley's propositions. 'She makes counter argument that Spain should herself be allowed to propose terms as to what should be done regarding her own territory; that the United States should not do so'."

SPANISH SITUATION.

Gravity of Affairs Felt in All Official Quarters.

Washington, April 1.—The gravity of the Spanish situation was felt in all official quarters yesterday. It was not a day of rapid development, as when war preparations were following in rapid succession, but the tension was even greater from the uncertainty that prevailed and the feeling that Spain would not concede the complete independence of Cuba.

The white house continued to be thronged with congressional leaders, anxious to learn from the president what his course was to be. The general view conveyed by these leaders, after they had been with the president, was that he expected to have definite replies from Spain in time to present the entire subject to congress by next Monday.

The state department was the center of interest throughout the day, as it was there that Minister Woodford's dispatch, announcing Spain's attitude, was to be received. The officials shared in the general anxiety.

The attitude of European powers continues to be seriously discussed in official quarters, as it is felt that an offer of European mediation is almost certain to follow a war crisis. No distinct offer has been submitted up to the present moment.

Congress will wait until Monday before taking any decided action on the Spanish situation unless called upon by the president to do so. The president has asked for the delay and assurances have been given by those in charge of affairs that there will be nothing done until that time.

The senate committee agreed to, and Senator Lodge reported a bill appropriating \$5,000,000 to purchase one or more of the Danish West India islands to be used for naval purposes.

The committee from the Republican conference reported to that conference a recommendation that no action be taken until Monday and its report was approved, the conference adjourning until that date.

When this committee returned from its consultation its chairman commended the course of the president and expressed confidence in what he was doing. As to his plans they said nothing, stating that they agreed to treat as confidential such communications as the president made to them.

The most important action taken by the navy department yesterday was the determination to have the naval militia of the several states prepared for the immediate service should this be found necessary.

Letters will be sent to the governors and to the adjutant generals of all states, where there are naval militia

When a man who has neglected his health finally realizes that he is being attacked by serious illness it is no time for half-way measures. Death is an enemy that must be knocked out in the first round, or he is pretty sure to conquer in the end. A weak stomach, an impaired digestion and a disordered liver mean that a man is fighting the first round with death. Unless he manages to strike the knock-out blow, it means that death will come up in the second round in the guise of some serious malady. When a man's stomach is weak and his digestion is impaired, the life-giving elements of the food he takes are not assimilated into the blood. The blood gets thin and weak, and the body slowly starves. In the meantime the disordered liver and the sluggish bowels take and the blood all manner of impurities. The body is hungry and eagerly consumes anything that the bloodstream carries to it. In place of healthy nutriment, it receives for food foul poisons that should have been excreted by the bowels. Continued, this system of starvation combined with poisoning, will wreck every organ in the body. Naturally, the weakest organ will give way first. If a man is naturally nervous, he will break down with nervous exhaustion or prostration. If he inherits weak lungs, the consequence will be consumption, bronchitis, asthma, or some disease of the air-passages. If he has a naturally sluggish liver, he will suffer from a serious bilious or malarial attack. Dr. Pierce's Golden Medical Discovery cures all disorders of the stomach, digestion and liver. It purifies the blood and fills it with the life-giving elements of the food that build new and healthy tissue. It is the great blood-maker and flesh-builder and nerve tonic. It cures 98 per cent. of the knock-out blow. It means that death will be recovered from this dread disease under this great medicine.

organizations, asking them to set in motion the machinery for drilling and equipping the state organizations more promptly so they will be ready within a few hours' notice to a call to arms.

SENATE FOREIGN COMMITTEE.

Captain Sigbee Given a Hearing by That Body.

Washington, April 1.—Captain Sigbee of the Maine and Captain Barker, Secretary of the naval aid, who went to Key West after the explosion on behalf of the department, were before the senate foreign committee yesterday afternoon. Captain Sigbee was questioned as to his opinion and knowledge of the Maine catastrophe. His story was not materially different from that given to the court of inquiry. Captain Sigbee did not express a conviction in so many words that the disaster was the result of treachery on the part of the Spanish, but after the committee had concluded its hearing one of its members expressed his belief that the explosion was due to that agency.

When the report circulated yesterday afternoon to the effect that Spain had rejected the proposals of the United States was brought to the attention of the committee, Senator Davis went to the senate chamber and asked that there should be no adjournment until Monday, as had been contemplated. There is no doubt that the committee is prepared to bring in a report at a moment's notice.

Four to One.

Crawfordsville, Ind., April 1.—General Lew Wallace believes that there will be war with Spain and that the averting of it is now practically impossible. Said he: "My sympathy has been with the president, but I fall to see where he will find strength to withstand the pressure that is for war. The war spirit is abroad in the land, and, in my opinion, if the issue were left to what our Populist friends call the 'referendum,' the vote favoring war would be about four to one."

PREPARING FOR ACTION.

Captain Sampson Has His Fleet Stripped of All Wood.

Key West, Fla., April 1.—Every preparation for action was taken by the warships yesterday. All woodwork was stripped off exposed posts and sent ashore. The wood pilot houses of the cruisers were taken down. To a certain extent interior woodwork was also removed and sent ashore. Even the sailors' wooden boxes were removed from some of the ships.

These precautions have been adopted to prevent, as far as possible, the danger of flying splinters in case of action. The officers sent their personal valuables and belongings to be stored on shore.

The Castine and two torpedo boats left their anchorages after dark last night and steamed to the southward, on patrol duty. This precaution was ordered by Captain Sampson. He is particularly anxious to watch closely the Havana entrance to this harbor and also to afford additional safety for the Iowa, Indiana and New York, which lie unprotected six miles out.

The naval station officials have received orders to overhaul their marine engineering stock, so that it could be used instantly in case of emergency. The establishment of a patrol is considered by the few who know of it as most significant. The entire fleet is now in readiness to move at 15 minutes' notice.

WILLIAM JENNINGS BRYAN.

He Says the Time Has Come to Intervene in Cuba.

Lincoln, Neb., April 1.—Hon. W. J. Bryan last night made the following statement in answer to the question whether in his judgment, the time had arrived for the United States to intervene in behalf of Cuba and bring the war to an end.

"Yes, the time for intervention has arrived. Humanity demands that we shall act. Cuba lies almost within sight of our shores and the sufferings of her people cannot be ignored unless we, as a nation, have become so engrossed in money making as to be indifferent to distress."

Intervention may be accomplished by danger and expense, but existence cannot be separated from responsibility and responsibility some time leads a nation as well as an individual into danger.

"Spain has only herself to blame for the condition of affairs in Cuba. If she denies to her former subjects the rights of war and calls the Cuban army a mob, let her remember the words of Victor Hugo: 'The mob is the human race in misery.' No nation can afford to make its people miserable."

"If the Cubans prefer death to Spanish rule it must be because Spanish rule has robbed life of joy and hope. If a nation sows the wind it must reap the whirlwind."

"War Risks" Advanced.

New York, April 1.—Rates for "war risks" advanced sharply yesterday among marine underwriters asking 50 per cent more than formerly. "War risks" upon American steamships sailing today for the east coast of South Africa were taken at 1 per cent. American sailing vessels, accepted Wednesday for 2 per cent brought 3 per cent yesterday. Rates for future sailings were proportionately higher. Shipments to gulf ports figured largely in the transactions.

Architects' Bill Out.

Columbus, O., April 1.—The supreme court has handed down a decision in the matter of the claims of Yost & Packard, architects, for \$10,000 for preparing plans for statehouse improvements. The court cuts the amount down to \$4,000.

CUBA IN THE HOUSE

Three Speeches Which Aroused the Members and Visitors.

INDIANA MAN PLEADS PEACE.

Richmond Congressman Hissed by the Galleries While Mr. Bailey's Effort in Reply Is Applauded—Mr. Grosvenor Said the Administration Was For Freedom of Cuba.

Washington, April 1.—For three hours the packed galleries and excited members of the house listened to a passionate outburst or oratory on the Cuban question yesterday, during which the intensity of feeling was alternately manifested by cheers, jeers and hisses.

The three speeches which stirred the assemblage to its depths were made by Mr. Grosvenor (Rep., O.), who it is assumed spoke for the administration, Mr. Bailey (Dem., Tex.), who announced the Democratic position as for free Cuba without war, if it could be avoided, but with war if necessary, and Mr. Johnson (Rep., Ind.) who spoke for peace.

Mr. Lewis (Dem., Wash.) provoked the speech of Mr. Johnson, which aroused the members and the galleries to the fever pitch of excitement.

Mr. Lewis had denounced the proposition that Cuba purchase her freedom from Spain, which, it was alleged, the administration was fostering. Then it was that Mr. Johnson in a brilliant speech pleaded for peace. He faced the storm of hisses which swept down upon him from the galleries like a sultan, and with passionate utterances adjured members to pause before they plunged the country into war, the evils of which would follow after the endless train. The house had before illustrations of Mr. Johnson's fearlessness, but none so striking as yesterday when he exposed the unpopular cause and pleaded to let diplomacy have its way. At the same time he gave it as his opinion that if an ultimatum had been sent to Spain it meant war, as Spain's pride would not permit her to humiliate herself before the world. He eulogized every influence that made for peace and declared his belief that the Cuban Junta would agree to pay \$100,000,000 for the independence of the island.

Mr. Bailey, the Democratic leader, seized the advantage which Mr. Johnson's position had afforded and set his followers and the galleries wild as he announced his belief from what Mr. Johnson had said, that the purpose of the Republicans in refusing to join with the Democrats last Wednesday was to give the administration an opportunity to compel the Cuban patriots to buy the independence they had won from the butchers of Spain. He said he, too, deplored war, and declared there was yet a chance to avert war. He had been told within 24 hours by a representative of the Cuban junta that they did not want to involve the United States in war. All they wanted was to have their independence recognized. In conclusion, he said the Democrats were for free Cuba without war if possible, with war if necessary.

This speech of Mr. Bailey's drew the fire of the administration spokesmen on the floor, General Grosvenor of Ohio. With his reply the climax of the day was reached. He charged Mr. Bailey with attempting to make political capital. He denounced the statements that the administration intended to force Cuba to buy her freedom as the silly invention of an idiot and declared that from the president down this administration was for free Cuba.

Recognition of her independence, he said, would be but a half way measure. He thrilled his auditors when he asked what meant the war preparations that were going on night and day if not that when action was taken looking to the independence of Cuba it would be backed up if necessary by the army and navy of the United States.

M. ZOLA'S APPEAL.

Now Being Heard in the French Court of Cassation.

Paris, April 1.—The court of cassation has begun hearing the appeal of M. Emile Zola against the sentence of one year's imprisonment and 3,000 francs fine imposed upon him on Feb. 23, after he had been convicted of making libelous charges in *Aurore* against the conduct of the Esterhazy court-martial, which was an outcome of the attempts to prove that Alfred Dreyfus, condemned to imprisonment for betraying French military secrets to a foreign power, should have a new trial. Counselor Chénod, who was appointed to examine the arguments, reported in favor of M. Zola's appeal, namely that his trial had been irregular because the suit was brought by the minister of war, instead of by the president of the court-martial, which M. Zola had libeled. If the court, as is probable, accepts M. Chénod's report, the case will not be retried. The condemnation will remain, but the sentence will not be executed.

ILLINOIS MAIL.

Governor Tanner Asked and Received General Wheeler's Resignation.

Chicago, April 1.—Brigadier General Harris A. Wheeler, commanding the first brigade of the Illinois National Guard resigned his commission yesterday at the request of Governor Tanner. No reason was given by the governor for the request but it is known that it came from the permission given to Colonel Kavanaugh of the Seventh infantry to parade on St. Patrick's day, the Seventh being a regiment in which the rank and file are largely Irishmen. All of the members of the staff of General Wheeler forwarded their resignations with his, being nine in number.

MUNITIONS OF WAR.

Agents Buying Them in Chicago and Shipping to Cuba.

Chicago, April 1.—Cuban agents or sympathizers in Chicago are busy shipping gunpowder and cartridges to the Florida coast. At Miami it is taken aboard small filibustering ships that deliver it to the insurgents. Twenty carloads have been shipped within a month and half as many more are being arranged to follow. These cars have passed as ordinary merchandise, and are divided among the half dozen different lines leading to Jacksonville. Great ingenuity is used in boxing the explosives so that they will pass a rigid scrutiny anywhere along the journey with good chances for escaping detection. The stuff is carefully packed in cans, buckets, kegs, barrels and crates bearing the brands of various packing houses, and is billed upon the cars as packers' products.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

The April fool has been around some today.

GEORGE THOMPSON's man was nominated for marshal, but it is said he has about surrendered that ambition he had to be street commissioner.

ABBUCKLE's organ is laboring more earnestly in behalf of Charley Burkart than any one else and will continue to do so until after the city election.

It is possible for the Democrat to find out just how little truth that leading editorial of Wednesday contained. The statement that "no gentleman of color" has participated in any public work done in the city may be meant as a reflection on some of the men who have done some most excellent work for the city.

The people of Seymour appreciate the fact that during the past four years the city debt has been reduced \$14,500. That the bonds which were bearing 6 per cent. interest were refunded at 5 per cent. That every bond that can be reached before 1901 has been redeemed. Also that the tax levy has been reduced ten cents on the one hundred dollars. It pays to elect republicans to office.

FROM THE LAND OF THE AZTEC.

An Interesting Letter From Our Fellow Citizen, Chas. L. Thomas.

SILAO, MEXICO, Mch. 25, 1898.

EDITORS REPUBLICAN:—I will tell you something about Mexico. Leaving El Paso the train is made up at Juarez. Baggage is not checked until inspected at Juarez. It is taken into a room where each man claims his baggage, and unlocks it. The Mexican custom officials are very clever and are soon done with their work. When he came to my trunk I lifted the tray out, and he looked in and asked what I had in some boxes. He never opened them nor disturbed an article. While coming over the river from El Paso an inspector goes through the car and inspects all had baggage. I opened my satchel but he passed it without looking in. I am told that the U. S. inspectors are much more scrutinizing. The Mexican Central is about the best railroad in Mexico, is very well equipped. The transportation is divided into 1st, 2nd and 3rd class. The 1st class is 3cts, 2nd, 2cts and 3rd, 1ct cents a kilometer, which is five-eighths of a mile. The cars of the 3rd class are supplied with benches running the full length of the car. The cars of the 2nd class have seats similar to those in our street cars. The 1st class cars are similar to our best coaches. Only holders of 1st class tickets can ride in the Pullman cars, and the fare in these is somewhat cheaper than in the states. The 3rd class coaches are best patronized. At El Paso when I started down I purchased \$100 of Mexican money for \$47.00, which is \$2.00 more than it is worth, that much extra being charged for exchange. All prices and charges I quote in this letter are based on Mexican money. The Central has very good eating houses along the line, at which the traveler pays \$1.00 a meal, although people residing at these places get the same from 35 cents to 75 cents. Most of these places are run by Chinamen, and I am told that the best restaurants in this country are operated by Chinamen. I am always looking for a Chinese restaurant when I want to eat. Coming down we were delayed 9 hours at Ortiz by the burning out of a tressle. Ortiz is a station of only 2 or 3 huts. There I got a typical Mexican breakfast which the station agent's wife prepared for me. The eggs, coffee and corn cakes were all I could partake of. Here is a fine ranch where I went out in the field and saw them planting corn. The process is rather a slow one. First a furrow is made with a hoe then a man follows with a long iron rod similar to our crow-bar and makes a hole 10 or 12 inches deep, into this the corn is dropped and then covered. The plowing is done with oxen or small mules and the plow is of very rude construction. From Ortiz we passed through quite a strip of desert country and the sand storms were terrible. The car was tightly closed and the heat was intense. At Torreon I expected to wait for Mrs. Thomas but owing to my throat and the vast amount of dust I went on to Silao, a village of about 10,000 people. Here I found a very good hotel and quite a colony of American railroad men. The climate at Silao is grand, with an elevation of 5,000 feet, it is very pleasant in the shade all day. From 10 o'clock to 5 o'clock during the sun is very warm, about as warm as our July, but the morning, and evenings are always cool enough to be pleasant. It is very dry and I should think a very healthful climate. I pay 75 cents a day for my room and can get good Mexican meals from 50 to 75 cents. Not being able to speak Spanish I have some trouble in getting what I want. At my first dinner the waiter asked me if I wanted a certain article and not understanding I nodded yes. When the article came it was a bottle of wine and the cost of same was 22 cents. No English is spoken at the hotel, so when I want information I get the railroad men to help me out. Men here do the work of drays in

the States and they can carry some big loads on their backs, too. The fellow that brought my trunk over carried it on his head. I have seen them with a big trunk on their backs and bundles in each hand.

At Silao, owing to a lack of water and irrigation, not much fruit is raised, but a short distance both north and south there is an abundance of fine fruit. The finest oranges I ever ate I got here, 5 for 10 cents. Strawberries are on the market at 25 cents a basket, which will hold about as much as two of our boxes. The berries are larger and better than those raised in our country. At Irapuato, 18 miles farther south, fine strawberries are marketed every day in the year. The cantelopes and water-melons are very poor. I met a man here from Akron, Ohio, who is putting down some artesian wells to get them introduced. If one had 10 acres of ground here and could get plenty of water to irrigate with during the dry season, he could raise berries, tomatoes, melons, etc., the year around. It is our summer 12 months in the year. When I start back from the City of Mexico, I am going to stop at Silao again for 5 or 6 days. I will meet Mrs. Thomas and son tonight and we will go on to the City for a short stay.

The land that is boomed here is for coffee and rubber and a great many Americans are investing. The two things that look most inviting to me for investment is the hotel business and that of raising small fruits. Mexico is full of tourists all the time. The man who has been down here for awhile and thinks he has made some money finds his profits cut in two when he leaves. If he has saved up \$1,000 of Mexican money he could only get \$450 in U. S. exchange for it.

In this communication I have said nothing about the manners and customs of the people as that would take too much time and space, but have mentioned a few things that I think will interest the readers of the REPUBLICAN. You will hear from me again.

ANCIENT STUTTGART.

Postal and Traveling Accommodations of the Old German City.

The post relations of ancient Stuttgart were unpretensions. The two mail-servants of the postmaster distributed through the city the daily letters, which they carried in the same basket with the family marketing. Letters were carried out of the city by postillions. There was a number of couriers, and as a surety against mistakes there hung in the post office, beside the curious mail bags, a huge whip, with which, when the commission had been given to the courier, a powerful blow for the strengthening of his memory was dealt him.

Coaches and post wagons were innocent of any suggestion of comfort—a high, clumsy wooden box was secured by thick leather straps, and in the cavernous bottom were confined together packages and passengers. Up and down hill, over ruts and rocks, the cumbersome vehicle rattled on its way, the hapless travelers being ever on the defensive against the assaults of tumbling boxes and bundles. And then the weary slowness of the way! Formerly the journey from Stuttgart to Tubingen was made in 12 hours. The same journey is now made in four hours. The postillions alighted to take refreshments when it pleased them, and one traveler has left a dismal record of a journey that he once made, during which the driver took the horses from the carriage and attached them to a hay wagon that had been left mired in the mud. The man drove the wagon into the next village, and when there he joined the grateful neighbors in a carousal, while the tired passengers languished on the dusty country road.—Elise J. Allen in Harper's Magazine.

PECULIAR WRITING.

Pupil Who Has a Style That Is Solely His Own.

Mitchell, Ind., April 1.—Alonso Morarity, a pupil in the schools here, has a peculiar style of writing. His penmanship is all in the reverse order. When a copy is placed on the black-board for the class, Alonso always begins at the right hand lower corner of his copy book and writes to the left and upward. He uses his left hand and all efforts to induce him to write in the regular way have failed. It is believed that it is impossible for him to do so, a peculiarity of his vision, and states that authorities do not mention a similar case.

Opinion of Dudley Foulke.

Richmond, Ind., April 1.—William Dudley Foulke, who has just returned from the south, gives it as his opinion that the United States will have war with Spain and that Cuban independence is a matter of the near future.

Noted Abolitionist Paralyzed.

Madison, Ind., April 1.—John Carr, years ago a noted abolitionist, has suffered a stroke of paralysis. He is 87 years old.

John York, who escaped from the Putnam county (Ind.) jail, after visiting his home in Hendricks county, has returned to Greencastle and surrendered to the officers.

NONUNION MEN.

Glass Manufacturers Threaten to Use Them If Strike Order Is Not Recalled.

Pittsburg, April 1.—The wage committee of the American Windowglass company has informed the officials of the Cutters and Flatteners' unions that if their strike order was not recalled and the men put to work at once, the manufacturers would run their factories with nonunion or any other men obtainable. Simon Burns, president of the Windowglass Workers' association (L. A. 800), has assured the manufacturers that no time will be lost, as he will fill the places of all striking cutters and flatteners with nonunion men or men from L. A. 800. The three-cornered fight is now on and promises interesting developments.

A Spring Speechlet.

Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself. And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

The People Know Our Goods are Right and They do Not Hesitate to Say so.

This refers not only to our carefully conducted drug and prescription department, but includes

OUR SODA COUNTER

Nobody sets a standard for us when it comes to soda water. We aim to make it better than the best. Thousands of people were delighted with our soda water last year. We are going to please them more than ever this season.

If you are not coming our way you would better join the procession at once.

Bring us your prescription work. Always ready for business. Ring bell at door for night clerk.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dral finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing out paper, and tone in the same kind of gold and aristo platinum bath. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

VICTOR HUGO MONROE.

Editor of the Seymour Journal Died Yesterday Afternoon.

Dr. V. H. Monroe, editor of the Seymour Journal, died at his home here Thursday March 31, 1898, at about 5:30 o'clock. He was born at Rockford, August 8, 1852. He was the son of Jasper R. Monroe, who at one time published the Seymour Times, but was better and more widely known as the editor of the Iron Clad Age, at Indianapolis. It was in his father's office that the deceased learned the printer's trade. In 1881, he began railroad work and at one time was yardmaster on the Ohio & Mississippi railroad. He began the study of medicine in his father's office in Seymour. He attended lectures at the Louisville Medical College in Louisville in 1878-79, and subsequently graduated at Indianapolis, where he took one course of lectures in 1882. Dr. Monroe has been engaged on several papers in Seymour in an editorial and reportorial capacity. He was at one time editor and proprietor of the Seymour True Republican. After disposing of this paper he practiced medicine for a time and then became the political editor of the Daily Republican, when it was published by a stock company. A few years later he purchased the Seymour Journal which he published as a democratic paper. At the time of his death he was studying law at Indianapolis, where he contracted his fatal illness. Last Friday he returned from the city sick and developed a severe case of typhoid pneumonia from which he died. He was a man of keen intellect, a vigorous writer, and had large list of friends, who admired his good qualities. He was married in August, 1885, to Miss Emma Squires, who with a son about two years of age survives him. They have the sympathy of the community in their sad bereavement.

The coming exhibition of the Corbett Fitzsimmons contest at Carson City, as shown by the Veriscope pictures at Opera House, Saturday, April 2, is attracting a very great deal of attention. The one hundred and forty three thousand photographs show the entire contest, including the preliminaries and the events at the end of the fourteenth round, with startling distinctness; even the most minute detail is clearly seen. The Veriscope and the pictures make a complete evening's entertainment running two hours and ten minutes.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea, I have never had to use more than one or two doses to cure the worst case of with myself or children. —W. A. Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself. And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing out paper, and tone in the same kind of gold and aristo platinum bath. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet glass cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

VICTOR HUGO MONROE.

Editor of the Seymour Journal Died Yesterday Afternoon.

Dr. V. H. Monroe, editor of the Seymour Journal, died at his home here Thursday March 31, 1898, at about 5:30 o'clock. He was born at Rockford, August 8, 1852. He was the son of Jasper R. Monroe, who at one time published the Seymour Times, but was better and more widely known as the editor of the Iron Clad Age, at Indianapolis. It was in his father's office that the deceased learned the printer's trade. In 1881, he began railroading and at one time was yardmaster on the Ohio & Mississippi railroad. He began the study of medicine in his father's office in Seymour. He attended lectures at the Louisville Medical College in Louisville in 1878-79, and subsequently graduated at Indianapolis, where he took one course of lectures in 1882. Dr. Monroe has been engaged on several papers in Seymour in an editorial and reportorial capacity. He was at one time editor and proprietor of the Seymour True Republican. After disposing of this paper he practiced medicine for a time and then became the political editor of the Daily Republican, when it was published by a stock company. A few years later he purchased the Seymour Journal which he published as a democratic paper. At the time of his death he was studying law at Indianapolis, where he contracted his fatal illness. Last Friday he returned from the city sick and developed a severe case of typhoid pneumonia from which he died. He was a man of keen intellect, a vigorous writer, and had large list of friends, who admired his good qualities. He was married in August, 1885, to Miss Emma Squires, who with a son about two years of age survives him. They have the sympathy of the community in their sad bereavement.

The coming exhibition of the Corbett Fitzsimmons contest at Carson City, as shown by the Veriscope pictures at Opera House, Saturday, April 2, is attracting a very great deal of attention. The one hundred and forty three thousand photographs show the entire contest, including the preliminaries and the events at the end of the fourteenth round, with startling distinctness; even the most minute detail is clearly seen. The Veriscope and the pictures make a complete evening's entertainment running two hours and ten minutes.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case of with myself or children. —W. A. A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at W. F. Peter's drug store.

A VIRTUE OF OLIVE OIL.

Man-of-war's Men Say That It Will Prevent Intoxication.

The glasses were going round when the man who had been in the navy spoke: "Wait a minute, boys. We've had several. Let me give you a tip that I learned when I was on the China station. You are pretty good drinkers, you Kentucky boys, and you can hold your own with anybody, east, west or north, who tries to put you under the table. But unless you carry out my plan don't you ever stack yourself up against an Englishman, and especially an army or a naval officer. You could knock him out on whisky, but he doesn't drink it, except in the shape of smoky Scotch and Irish abominations. But champagne, burgundy, claret, ale, sherry, madeira, port, pulque in Mexico, sake in China, palm liquor in Africa, bamboos and shandygaff in India, steer clear of them—that is, unless you have the good luck to meet a certain little, yellow faced, wizened creole from Louisiana whose recipe is passed around the mess table of United States men-of-war to this day.

"It started in the old days when the British officers always had the pleasure of outstaying their American guests or hosts whenever two ships met on foreign stations. Then that little yellow devil came along with his trick, and the Englishman has never since come out better than second in any drinking bout. The secret? Olive oil. One wineglassful before the fun begins, and, if possible, another later on, and you can keep your wit and legs throughout the dampest evening. I suppose one of two things happens. Either the oil coats the stomach and keeps the alcohol from being absorbed by the system, or else it floats on top and keeps the fumes from rising to the brain. But you'll have to ask the medicine men about that. All I know is its practical result, and that has enabled us Yankee Doodles to go home cheerful and clear headed many an evening when our foreign cousins were speechless."—Louisville Courier-Journal.

Swede Spent Two Years in Vindicating His Brother's Honor.

"I practiced law once in Silverton, Colo.," said one of the passengers in the smoking room of the Pullman, "and had a case that struck me as a model exhibition of faithfulness. A Swede was mail carrier over the pass to the other side of the range. It was not a long trip, but it was a severe one, made on foot and with the danger in winter from heavy snows added to its difficulty. Andrew carried the mail for a year, then one day he failed to reach home. There were valuable letters in his sack, and the inference that he had decamped was strong. On the night he should have come into Silverton his brother, fresh from Scandinavia and unable to speak English, got off the stage. As county attorney I had to break the news to the boy and stood by while he wept.

"Rewards were offered for Andrew, and I sent out parties to search the pass, but to no effect. A miner claimed to have seen him a week later in Leadville, but we got no more trace of him. The brother refused to believe that Andrew had done wrong and spent his days tramping the canyons searching for his brother's body. We tried to get him to go to work, but he did not yield until by his shortness of funds he was starved to it. In the summer, when most of the snow was off, he searched again, but in vain. During the winter he worked, but when the second spring came he renewed his lonely tramping up the trail. We thought him demented, but he cared not for our opinions. One day in August he walked along at the base of a cliff and saw a boot sticking out from some debris. He uncovered it, and his search was ended. That evening he came into town with the mail sack, much stained but intact, and his brother's coat. The grave he dug, with the rough stone he afterward put at its head, is up the canyon yet. It took two years to vindicate his brother's name, but he did not begrudge it. When it was done, he went back to his native land."—Chicago Times-Herald.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other disease.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its truthfulness of this offer.

My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and side, no appetite, gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at W. F. Peter's drug store.

A VIRTUE OF OLIVE OIL.

Man-of-war's Men Say That It Will Prevent Intoxication.

The glasses were going round when the man who had been in the navy spoke: "Wait a minute, boys. We've had several. Let me give you a tip that I learned when I was on the China station. You are pretty good drinkers, you Kentucky boys, and you can hold your own with anybody, east, west or north, who tries to put you under the table. But unless you carry out my plan don't you ever stack yourself up against an Englishman, and especially an army or a naval officer. You could knock him out on whiskey, but he doesn't drink it, except in the shape of smoky Scotch and Irish abominations. But champagne, burgundy, claret, ale, sherry, madeira, port, pulque in Mexico, sake in China, palm liquor in Africa, bamboo and shandygaff in India, steer clear of them—that is, unless you have the good luck to meet a certain little, yellow faced, wizened creole from Louisiana whose recipe is passed around the mess table of United States men-of-war to this day.

"It started in the old days when the British officers always had the pleasure of outstaying their American guests or hosts whenever two ships met on foreign stations. Then that little yellow devil came along with his trick, and the Englishman has never since come out better than second in any drinking bout. The secret? Olive oil. One wine-glassful before the fun begins, and, if possible, another later on, and you can keep your wit and legs throughout the dampest evening. I suppose one of two things happens. Either the oil coats the stomach and keeps the alcohol from being absorbed by the system, or else it floats on top and keeps the fumes from rising to the brain. But you'll have to ask the medicine men about that. All I know is its practical result, and that has enabled us Yankee Doodles to go home cheerful and clear headed many an evening when our foreign cousins were speechless."—Louisville Courier-Journal.

FAITHFUL UNTO DEATH.

Swede Spent Two Years in Vindicating His Brother's Honor.

"I practiced law once in Silverton, Colo.," said one of the passengers in the smoking room of the Pullman, "and had a case that struck me as a model exhibition of faithfulness. A Swede was mail carrier over the pass to the other side of the range. It was not a long trip, but it was a severe one, made on foot and with the danger in winter from heavy snows added to its difficulty. Andrew carried the mail for a year, then one day he failed to reach home. There were valuable letters in his sack, and the inference that he had decamped was strong. On the night he should have come into Silverton his brother, fresh from Scandinavia and unable to speak English, got off the stage. As county attorney I had to break the news to the boy and stood by while he wept.

"Rewards were offered for Andrew, and I sent out parties to search the pass, but to no effect. A miner claimed to have seen him a week later in Leadville, but we got no more trace of him. The brother refused to believe that Andrew had done wrong and spent his days tramping the canyons searching for his brother's body. We tried to get him to go to work, but he did not yield until by his shortness of funds he was starved to it. In the summer, when most of the snow was off, he searched again, but in vain. During the winter he worked, but when the second spring came he renewed his lonely trappings up the trail. We thought him demented, but he cared not for our opinions. One day in August he walked along at the base of a cliff and saw a loot sticking out from some debris. He uncovered it, and his search was ended. That evening he came into town with the mail sack, much stained but intact, and his brother's coat. The grave he dug with the rough stone he afterward put at its head, is up the canyon yet. It took two years to vindicate his brother's name, but he did not begrudge it. When it was done, he went back to his native land."—Chicago Times-Herald.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the woman, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two cent stamps to cover cost of postage on the bottle. M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. SPAIN HAS REPLIED

Neither Accedes to Nor Declines McKinley's Propositions.

CONGRESS ASKED FOR TIME.

President Expects Definite Results by Monday at the Latest—Captain Sampson Preparing His Fleet For Action—Underwriters Sharply Advance the War Risks.

New York, April 1.—A Washington special to The World this morning says that Spain's answer to the note presented by Minister Woodford has been received in cipher at the white house and that the following is an outline of the reply:

"Spain neither accedes to nor declines President McKinley's propositions. 'She makes counter argument that Spain should herself be allowed to propose terms as to what should be done regarding her own territory; that the United States should not do so.'"

SPANISH SITUATION.

Gravity of Affairs Felt in All Official Quarters.

Washington, April 1.—The gravity of the Spanish situation was felt in all official quarters yesterday. It was not a day of rapid development, as when war preparations were following in rapid succession, but the tension was even greater from the uncertainty that prevailed and the feeling that Spain would not concede the complete independence of Cuba.

The white house continued to be thronged with congressional leaders, anxious to learn from the president what his course was to be. The general view conveyed by these leaders, after they had been with the president, was that he expected to have definite replies from Spain in time to present the entire subject to congress by next Monday.

The state department was the center of interest throughout the day, as it was there that Minister Woodford's dispatch, announcing Spain's attitude, was to be received. The officials shared in the general anxiety.

The attitude of European powers continues to be seriously discussed in official quarters, as it is felt that an offer of European mediation is almost certain to follow a war crisis. No distinct offer has been submitted up to the present moment.

Congress will wait until Monday before taking any decided action on the Spanish situation unless called upon by the president to do so. The president has asked for the delay and assurances have been given by those in charge of affairs that there will be nothing done until that time.

The senate committee agreed to, and Senator Lodge reported a bill appropriating \$5,000,000 to purchase one or more of the Danish West India Islands to be used for naval purposes.

The committee from the Republican conference reported to that conference a recommendation that no action be taken until Monday and its report was approved, the conference adjourning until that date.

When this committee returned from its consultation its chairman commended the course of the president and expressed confidence in what he was doing. As to his plans they said nothing, stating that they agreed to treat as confidential such communications as the president made to them.

The most important action taken by the navy department yesterday was the determination to have the naval militia of the several states prepared for the immediate service should this be found necessary.

Letters will be sent to the governors and to the adjutant generals of all states, where there are naval militia

When a man who has neglected his health finally realizes that he is being attacked by serious illness it is no time for half-way measures. Death is an enemy that must be knocked out in the first round, or he is pretty sure to conquer in the end. A weak stomach and a disordered liver mean that a man is fighting the first round with death. Unless he manages to strike the knock-out blow, it means that death will come up in the second round in the guise of some serious malady. When a man's stomach is weak and his digestion is impaired, the life-giving elements of the food he takes are not assimilated into the blood. The blood gets thin and weak, and the body slowly starves. In the meantime the disordered liver and the sluggish bowels have forced into the blood all manner of impurities. The body is hungry and eagerly consumes anything that the blood-stream carries to it. In place of healthy nutriment it receives for food food poisons that should have been excreted by the bowels. Continued, this system of starvation combined with poisoning, will wreck every organ in the body. Naturally, the weakest organ will give way first. If a man is naturally nervous, he will break down with nervous exhaustion or prostration. If he inherits weak lungs, the consequence will be consumption, bronchitis, asthma, or some disease of the air-passages. If he has a naturally sluggish liver, he will suffer from a serious bilious or malarial attack. Dr. Pierce's Golden Medical Discovery cures all disorders of the stomach, digestion and liver. It purifies the blood and fills it with the life-giving elements of the food that build new and healthy tissue. It is the great blood-maker and flesh-builder and nerve tonic. It cures 98 per cent. of all cases of consumption. Thousands have testified to their recovery from this dread disease under this great medicine.

Dr. Pierce's Pellets cure constipation.

organizations, asking them to set in motion the machinery for drilling and equipping the state organizations more promptly so they will be ready within a few hours' notice to a call to arms.

SENATE FOREIGN COMMITTEE.

Captain Sigbee Given a Hearing by That Body.

Washington, April 1.—Captain Sigbee of the Maine and Captain Barker, Secretary Long's naval aide, who went to Key West after the explosion on behalf of the department, were before the senate foreign committee yesterday afternoon. Captain Sigbee was questioned as to his opinion and knowledge of the Maine catastrophe. His story was not materially different from that given to the court of inquiry. Captain Sigbee did not express a conviction in so many words that the disaster was the result of treachery on the part of the Spanish, but after the committee had concluded its hearing one of its members expressed his belief that the explosion was due to that agency.

When the report circulated yesterday afternoon to the effect that Spain had rejected the proposals of the United States was brought to the attention of the committee, Senator Davis went to the senate chamber and asked that there should be no adjournment until Monday, as had been contemplated. There is no doubt that the committee is prepared to bring in a report at a moment's notice.

Four to One.

Crawfordsville, Ind., April 1.—General Lew Wallace believes that there will be war with Spain and that the averting of it is now practically impossible. Said he: "My sympathy has been with the president, but I fall to see where he will find strength to withstand the pressure that is for war. The war spirit is abroad in the land, and in my opinion, if the issue were left to what our Populist friends call the 'referendum,' the vote favoring war would be about four to one."

PREPARING FOR ACTION.

Captain Sampson Has His Fleet Stripped of All Wood.

Key West, Fla., April 1.—Every preparation for action was taken by the warships yesterday. All woodwork was stripped off exposed spots and sent ashore. The wood pilot houses of the cruisers were taken down. To a certain extent interior woodwork was also removed and sent ashore. Even the sailors' wooden boxes were removed from some of the ships.

These precautions have been adopted to prevent, as far as possible, the danger of flying splinters in case of action. The officers sent their personal valuables and belongings to be stored on shore.

The Castine and two torpedo boats left their anchorages after dark last night and steamed to the southward, on patrol duty. This precaution was ordered by Captain Sampson. He is particularly anxious to watch closely the Havana entrance to this harbor and also to afford additional safety for the Iowa, Indiana and New York, which lie unprotected six miles out.

The naval station officials have received orders to overhaul their marine engineering stock, so that it could be used instantly in case of emergency. The establishment of a patrol is considered by the few who know of it as most significant. The entire fleet is now in readiness to move at 15 minutes' notice.

WILLIAM JENNINGS BRYAN.

He Says the Time Has Come to Intervene in Cuba.

Lincoln, Neb., April 1.—Hon. W. J. Bryan last night made the following statement in answer to the question whether in his judgment, the time had arrived for the United States to intervene in behalf of Cuba and bring the war to an end.

"Yes, the time for intervention has arrived. Humanity demands that we shall act. Cuba lies almost within sight of our shores and the sufferings of her people cannot be ignored unless we, as a nation, have become so engrossed in money making as to be indifferent to distress."

Intervention may be accomplished by danger and expense, but existence cannot be separated from responsibility and responsibility some time leads a nation as well as an individual into danger.

"Spain has only herself to blame for the condition of affairs in Cuba. If she denies to her former subjects the rights of war and calls the Cuban army a mob, let her remember the words of Victor Hugo: 'The mob is the human race in misery.' No nation can afford to make its people miserable."

"If the Cubans prefer death to Spanish rule it must be because Spanish rule has robbed life of joy and hope. If a nation sows the wind it must reap the whirlwind."

"War Risks" Advanced.

New York, April 1.—Rates for "war risks" advanced sharply yesterday among marine underwriters asking 50 per cent more than formerly. "War risks" upon American steamships sailing today for the east coast of South Africa were taken at 1 per cent. American sailing vessels, accepted Wednesday for 2 per cent brought 3 per cent yesterday. Rates for future sailings were proportionately higher. Shipments to gulf ports figured largely in the transactions.

Architects' Bill Out.

Columbus, O., April 1.—The supreme court has handed down a decision in the matter of the claims of Yost & Packard, architects, for \$10,000 for preparing plans for statehouse improvements. The court cuts the amount down to \$4,000.

Sawmill Boiler Explodes.

Bradford, Ind., April 1.—The boiler in the new sawmill of David Sissoff exploded, seriously injuring Mr. Sissoff, his son William and David Lagle, the engineer. It is not thought the elder Sissoff can live.

CUBA IN THE HOUSE

Three Speeches Which Aroused the Members and Visitors.

INDIANA MAN PLEADS PEACE.

Richmond Congressman Hissed by the Galleries While Mr. Bailey's Effort in Reply Is Applauded—Mr. Grosvenor Said the Administration Was For Freedom of Cuba.

Washington, April 1.—For three hours the packed galleries and excited members of the house listened to a passionate outburst or oratory on the Cuban question yesterday, during which the intensity of feeling was alternately manifested by cheers, jeers and hisses.

The three speeches which stirred the assembly to its depths were made by Mr. Grosvenor (Rep., O.), who it is assumed spoke for the administration, Mr. Bailey (Dem., Tex.), who announced the Democratic position as for free Cuba without war, if it could be avoided, but with war if necessary, and Mr. Johnson (Rep., Ind.) who spoke for peace.

Mr. Lewis (Dem., Wash.) provoked the speech of Mr. Johnson, which aroused the members and the galleries to the fever pitch of excitement.

Mr. Lewis had denounced the proposition that Cuba purchase her freedom from Spain, which, it was alleged, the administration was fostering. Then it was that Mr. Johnson in a brilliant speech pleaded for peace. He faced the storm of hisses which swept down upon him from the galleries like a spartan, and with passionate utterances adjured members to pause before they plunged the country into war, the evils of which would follow after the endless train. The house has had before illustrations of Mr. Johnson's fearlessness, but none so striking as yesterday when he espoused the unpopular cause and pleaded to let diplomacy have its way. At the same time he gave it as his opinion that if an ultimatum had been sent to Spain it meant war, as Spain's pride would not permit her to humiliate herself before the world. He eulogized every influence that made for peace and declared his belief that the Cuban Junta would agree to pay \$100,000 for the independence of the island.

Mr. Bailey, the Democratic leader, seized the advantage which Mr. Johnson's position had afforded and set his followers and the galleries wild as he announced his belief, from what Mr. Johnson had said, that the purpose of the Republicans in refusing to join with the Democrats last Wednesday was to give the administration an opportunity to compel the Cuban patriots to buy the independence they had won from the butchers of Spain. He said he, too, deplored war, and declared there was yet a chance to avert war. He had been told within 24 hours by a representative of the Cuban Junta that they did not want to involve the United States in war. All they wanted was to have their independence recognized. With the munitions of war and the recruits they could then obtain, their independence could be achieved. In conclusion, he said the Democrats were for free Cuba without war if possible, with war if necessary.

This speech of Mr. Bailey's drew the fire of the administration spokesmen on the floor, General Grosvenor of Ohio. With his reply the climax of the day was reached. He charged Mr. Bailey with attempting to make political capital. He denounced the statements that the administration intended to force Cuba to buy her freedom as the silly invention of an idiot and declared that from the president down this administration was for free Cuba.

Recognition of her independence, he said, would be but a half way measure. He thrilled his auditors when he asked what meant the war preparations that were going on night and day if not that when action was taken looking to the independence of Cuba it would be backed up if necessary by the army and navy of the United States.

M. ZOLA'S APPEAL.

Now Being Heard in the French Court of Cassation.

Paris, April 1.—The court of cassation has begun hearing the appeal of M. Emile Zola against the sentence of one year's imprisonment and 3,000 francs fine imposed upon him on Feb. 23, after he had been convicted of making libelous charges in *Aurore* against the conduct of the Esterhazy court-martial, which was an outcome of the attempts to prove that Alfred Dreyfus, condemned to imprisonment for betraying French military secrets to a foreign power, should have a new trial. Counselor Chamberlain, who was appointed to examine arguments, reported in favor of M. Zola's suit, namely that his suit had been irregular because the suit was brought by the minister of war, instead of the president of the court-martial, which M. Zola had libeled. If the court, as is probable, accepts M. Chamberlain's report, the case will not be retried. The condemnation will remain, but the sentence will not be executed.

ILLINOIS' MALITA.

Governor Tanner Asked and Received General Wheeler's Resignation.

Chicago, April 1.—Brigadier General Harris A. Wheeler, commanding the first brigade of the Illinois National Guard resigned his commission yesterday at the request of Governor Tanner. No reason was given by the governor for the request but it is known that it came from the permission given to Colonel Kavanaugh, of the Seventh infantry to parade on St. Patrick's day, the Seventh being a largely Irishman.

All of the members of the staff of General Wheeler forwarded their resignations with his, being nine in number.

MUNITIONS OF WAR.

Agents Buying Them in Chicago and Shipping to Cuba.

Chicago, April 1.—Cuban agents or sympathizers in Chicago are busy shipping gunpowder and cartridges to the Florida coast. At Miami it is taken aboard small filibustering ships that deliver it to the insurgents. Twenty carloads have been shipped within a month and half as many more are being arranged to follow. These cars have passed as ordinary merchandise, and are divided among the half dozen different lines leading to Jacksonville. Great ingenuity is used in boxing the explosives so that they will pass a rigid scrutiny anywhere along the journey with good chances for escaping detection. The stuff is carefully packed in cans, buckets, kegs, barrels and crates bearing the brands of various packing houses, and is billed upon the cars as packers' products.

MRS. W. C. WHITNEY.

Her Condition Said to Be Very Serious. Mr. Whitney Disheartened.

New York, April 1.—According to reports received by her friends in this city, the condition of Mrs. William C. Whitney, who was injured several weeks ago while riding to hounds at Aiken, S. C., is very serious. Ever since that time Mrs. Whitney has been paralyzed.

Letters from Aiken and returning friends have told society what the public bulletins issued from her bedside have not. Her improvement has been slight that Mr. Whitney is disheartened by reports from her physicians. It is said that an attempt to bring her home will be made Monday.

In his mail yesterday were 31 letters from widows, old maids and young ladies, some not over 16 years of age, all stating their willingness to become Mrs. Clay. Several of these letters were accompanied by photographs.

The Murderess of Freda Ward Expires in an Asylum.

The cause of death is not known.

Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself. And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way, clinging strictly to facts and figures.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum of dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing out paper, and tone in the same kind of gold and aristo platinum bath. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

VICTOR HUGO MONROE.

Editor of the Seymour Journal Died Yesterday Afternoon.

Dr. V. H. Monroe, editor of the Seymour Journal, died at his home here Thursday March 31, 1898, at about 5:30 o'clock. He was born at Rockford, August 8, 1852. He was the son of Jasper R. Monroe, who at one time published the Seymour Times, but was better and more widely known as the editor of the Iron Clad Age, at Indianapolis. It was in his father's office that the deceased learned the printer's trade. In 1881, he began railroading and at one time was yardmaster on the Ohio & Mississippi railroad. He began the study of medicine in his father's office in Seymour. He attended lectures at the Louisville Medical College in Louisville in 1878-79, and subsequently graduated at Indianapolis, where he took one course of lectures in 1882. Dr. Monroe has been engaged on several papers in Seymour in an editorial and reportorial capacity. He was at one time editor and proprietor of the Seymour True Republican. After disposing of this paper he practiced medicine for a time and then became the political editor of the Daily Republican, when it was published by a stock company. A few years later he purchased the Seymour Journal which he published as a democratic paper. At the time of his death he was studying law at Indianapolis, where he contracted his fatal illness. Last Friday he returned from the city sick and developed a severe case of typhoid pneumonia from which he died. He was a man of keen intellect, a vigorous writer, and had large list of friends, who admired his good qualities. He was married in August, 1885, to Miss Emma Squires, who with a son about two years of age survives him. They have the sympathy of the community in their sad bereavement.

The coming exhibition of the Corbett Fitzsimmons contest at Carson City, as shown by the Veriscope pictures at Opera House, Saturday, April 2, is attracting a very great deal of attention. The Veriscope and the pictures make a complete evening's entertainment running two hours and ten minutes.

Samuel DeLong and wife, of near Freetown, celebrated their golden wedding Wednesday in royal style. Fifty friends were present and enjoyed a fine dinner.

In 1888 my wife went east and was attacked with rheumatism. She received no relief until she tried Chamberlain's Pain Balm. Since that time she has never been without it. We find it gives instant relief in cases of burns and scalds and is never failing for all rheumatic and neuralgic pains.—D. C. Bryant, Ynez, Cal. For sale by C. W. Milhouse.

The Johnson Family.

The large auditorium was filled last night at the Methodist church on account of the excellent entertainment given by the Johnson family and the Epworth League realized a nice little sum as their share of the proceeds.

Robbed the Grave.

A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at W. F. Peter's drug store.

A VIRTUE OF OLIVE OIL.

Man-of-war's Men Say That It Will Prevent Intoxication.

The glasses were going round when the man who had been in the navy spoke: "Wait a minute, boys. We've had several. Let me give you a tip that I learned when I was on the China station. You are pretty good drinkers, you Kentucky boys, and you can hold your own with anybody, east, west or north, who tries to put you under the table. But unless you carry out my plan don't you ever stack yourself up against an Englishman, and especially an army or a naval officer. You could knock him out on whisky, but he doesn't drink it, except in the shape of smoky Scotch and Irish abominations. But champagne, burgundy, claret, ale, sherry, madeira, port, pulque in Mexico, sake in China, palm liquor in Africa, bamboos and shandygaff in India, steer clear of them—that is, unless you have the good luck to meet a certain little, yellow faced, wizened crook from Louisiana whose recipe is passed around the mess table of United States men-of-war to this day.

"It started in the old days when the British officers always had the pleasure of outstaying their American guests or hosts whenever two ships met on foreign stations. Then that little yellow devil came along with his trick, and the Englishman has never since come out better than second in any drinking bout. The secret? Olive oil. One wine-glassful before the fun begins, and, if possible, another later on, and you can keep your wit and legs throughout the dampest evening. I suppose one of two things happens. Either the oil coats the stomach and keeps the alcohol from being absorbed by the system, or else it floats on top and keeps the fumes from rising to the brain. But you'll have to ask the medicine men about that. All I know is its practical result, and that has enabled us Yankee Doodles to go home cheerful and clear headed many an evening when our foreign cousins were speechless."—Louisville Courier-Journal.

FAITHFUL UNTO DEATH.

Swede Spent Two Years in Vindicating His Brother's Honesty.

"I practiced law once in Silverton, Colo.," said one of the passengers in the smoking room of the Pullman, "and had a case that struck me as a model exhibition of faithfulness. A Swede was mail carrier over the pass to the other side of the range. It was not a long trip, but it was a severe one, made on foot and with the danger in winter from heavy snows added to its difficulty. Andrew carried the mail for a year, then one day he failed to reach home. There were valuable letters in his sack, and the inference that he had decamped was strong. On the night he should have come into Silverton his brother, fresh from Scandinavia and unable to speak English, got off the stage. As county attorney I had to break the news to the boy and stood by while he wept.

"Rewards were offered for Andrew, and I sent out parties to search the pass, but to no effect. A miner claimed to have seen him a week later in Leadville, but we got no more trace of him. The brother refused to believe that Andrew had done wrong and spent his days tramping the canyons searching for his brother's body. We tried to get him to go to work, but he did not yield until by his shortness of funds he was starved to it. In the summer, when most of the snow was off, he searched again, but in vain. During the winter he worked, but when the second spring came he renewed his lonely trampings up the trail. We thought him demented, but he cared not for our opinions. One day in August he walked along at the base of a cliff and saw a boot sticking out from some debris. He uncovered it, and his search was ended. That evening he came into town with the mail sack, much stained but intact, and his brother's coat. The grave he dug with the rough stone he afterward put at its head, is up the canyon yet. It took two years to vindicate his brother's name, but he did not begrudge it. When it was done, he went back to his native land."—Chicago Times-Herald.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other disease.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the Republic and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its punctuality of this offer.
